SUMMARY

As an adept freelance front-end developer, I am currently seeking opportunities to design and maintain web applications for clientele. Leveraging my programming proficiency, meticulous attention to detail, and keen artistic sensibility, my objective is to craft sophisticated programs that blend visual allure with business efficacy. I aim to utilize my expertise to conceive innovative concepts that foster user engagement.

Torrey Pines

PROJECTS

Around the US

📅 05/2024 - 06/2024

🔗 https://github.com/ParkerCase/se_project_aroundtheus

- Utilizing HTML, CSS, Javascript, and various other skills, I developed an interactive website where users can customize their profiles to fit themselves and their adventures.

Coffee Shop Landing Page

📅 04/2024 - 05/2024

🔗 https://github.com/ParkerCase/se_project_coffeeshop

- Using HTML, CSS, and several skills, I sought to create a smooth and straightforward user experience for a fake online coffee shop.

The Library

📅 03/2024 - 04/2024

🔗 https://github.com/ParkerCase/the_library

- Via HTML, CSS, and other skills, I sought to create a smooth and straightforward user experience for a reimagined fake online library.

AWARDS

💎 **Finalist at WorldFest-Houston International Film Festival**

💎 **Semi-Finalist at Scriptation Showcase**
